

## **Oxford vs. Cambridge Alumni Cricket Match, Toronto**

The afternoon of the third Sunday of June, Father's Day, has seen a cricket match played between the alumni of Oxford and Cambridge Universities in Toronto for four decades. Among alumni societies globally, this fixture is unique in its longevity and has been a source of enjoyment and connection for alumni and their families. In the first 30 years, it was played at Lords Cricket Ground, Upper Canada College, with the kind permission of the principal, for all but five matches. Those first 30 summers saw almost 200 Oxbridge alumni and their relations playing cricket, with 37 players associated with UCC as alumni, fathers or staff (see below). The hope of the Oxford and Cambridge Society of Toronto is that the match might take place at UCC, particularly for the 40<sup>th</sup> anniversary, summer 2022.

The fixture was initiated by Terence Bredin in 1982, while staff at UCC, and the spirit of the match is influenced by him to this day. Although not formalized, the motto might be:

Ludus Ludi Causa, or A Game for a Game's Sake.

The match has always been enjoyed by spectators and players alike. There were a number of closely fought games and the original trophy, donated by Governor General and Oxford alum Roland Michener, never stayed with one team for more than three years. Centuries and half-centuries were hit over the years, often with more than one generation of a family playing and novice players sometimes joining those who won a 'Blue' in the sport at university. Terence inscribed one programme: "20 June, 1999. One of the best games. Beautiful day – not too hot. What a cricket game should be."

The geniality of good sportsmanship and a warm sense of humour infused the proceedings. In the summer of his 70<sup>th</sup> year, Terence captained the Oxford side and wrote: "Bredin – a very strategic move on his part – to put himself on to bowl (nobody else would have). His usual slow rubbish: batsmen saw this move as a last resort, counsel of despair, clutching at straws. Thought the match as good as won, and relaxed their attention, lowered their guard at a critical moment. Especially as the plan failed and the catch he was bowling for, "I was bowling for that!" – was dropped!" The summer of the 25<sup>th</sup> match was the last he organized, when Terence was in his 77<sup>th</sup> year. Remarkably, that year Cambridge were bowled out for 77 and Oxford won by 5 wickets; one player from this game had also appeared in 1982 – Terence Bredin.

Marking Terence's contribution to the first quarter century of this fixture, in 2007 Oxford's Chancellor Chris Patten wrote, "Our friendly rivalry with our Cambridge colleagues is important to both universities and I'm very grateful for your role in building bridges." An album of the programmes of the first 30 years is held in the collections of the Bodleian Library, Oxford, and the Cambridge University Library as a mark of this special fixture. To mark the 40<sup>th</sup> anniversary of this match, money is being raised to purchase the "Bredin Cricket Trophy" and to endow a "Bredin Youth in Cricket Fund", in memory of Terence. To follow, a selection from the cricket album, including the introduction by Terence Bredin.

13 November 2007

*Dear Terence Bredin,*

On behalf of the University of Oxford, I would like to congratulate you on the occasion of the luncheon being held by the Toronto Branch of the Oxford University Society in your honour, and to thank you for all that you have done over the years to promote the University in Toronto, and in particular your work for our reputation as a cricketing university.

I have fond memories of the amount of time I spent playing cricket, when I myself was up at Oxford, and occasionally thereafter. We appreciate your work in sustaining the tradition of the Oxford-Cambridge cricket match for the Michener Trophy over the past two decades. Our friendly rivalry with our Cambridge colleagues is important to both universities and I'm very grateful for your role in building bridges to the Cambridge Society in Toronto.

I wish you continued health and long life.

*Yours,  
R. Patten*

From *Use of Personal Pronouns: a Lesson in English Grammar*

One thinks of *one* as a pronoun employed principally  
At Cambridge, modestly to include oneself  
And other people in one's own set,  
At Cambridge. One appreciates the French usage  
Of *on*; one knows one's Henry James;  
One does feel (or, of course, alternatively, one does not)  
One must, on the whole, concur with Dr. Leavis  
(or, of course, alternatively, with Mr. Rylands).  
At Oxford, on the other hand,  
*One* tends to become *we*. At Cambridge  
One senses a certain superiority in the Oxford *we*;  
A certain exclusiveness in the Cambridge *one*  
Is suspected, at Oxford.

– John Heath-Stubbs

## Album Introduction, by Terence Bredin

Ludus Ludi Causa, or, A Game for a Game's Sake

I used to quote the poem above at the end of every match... I was always careful to introduce some minor (well, comparatively minor) mistakes in view of which I always craved permission to recite it yet again so as to get it right (this went on annually).

First of all, a big thank you to three ladies: two for Cambridge, Elizabeth Fawcett and Maggie Norman, and for Oxford, Morwenna Given. And thinking of all those who helped in so many ways: Umpire Jack White (TCD) who was so sorry he just *had* to give me out LBW when I played straight across Robin Hazell; the many who have graced the game with their presence (some of whom have gone to the majority: Bill Kilbourn, David Cape, Robin Hazell, David York, Tony Wells, Barry de Zwann); the wonderful Miss "B": Barbara Barrow the school nurse, who loved being hailed as Visitor; the great proconsul, Roland Michener, GG (who only got his college, Hertford, wrong once), founder of the eponymous trophy. (On one occasion he couldn't attend his game because he was climbing... Mount Michener!) Thinking too of Daisy White, our regular scorer, and Jamie Smyth who helped out on occasion: but it was Daisy who set down the very unlikely figures of 5 (five!) wickets for 3 (three!) runs, for the Oxford Captain! (Modesty forbids...)

The man of the match was so often Andy Neale of Cantab, a wonderfully vigorous hitter whose presence could turn the game around. But what's this? Ken Wiwa playing for Oxford? He wasn't at Oxford or the other place (he's "I" for 'invitational' in the programme). Well, I got him to play for *Cambridge* the next year. That was in the P.S. (post-Siddiqui) period. In the S.S., or Siddiqui Stage, during one game, Elizabeth Fawcett was amazed that as a Cambridge loan, a Siddiqui should make 80 and the Oxford rest made 20: "What does he (Kendall) think he's doing?" Which brings on the perfect moment to express appreciation of our opposing Captains, Kendall Carey, for so long, and before that, Peter Robinson, Bob Chapman, adjutant, and John Laing, present. M.I.D. (Mentioned in Dispatches)... For the Oxford side: Well, Dick Hill, surely: a great all rounder. Martin Ward, who played in as many games as I did (he missed the very first one and then I missed a later one, sabbatically), coming all the way down from Orillia on all these occasions. And how could I forget to mention John Ferns of Teddy Hall, match-winner of one really exciting game – the one that I missed. For Cantab: John Laing hitting the ball so hard, and I being too close to him – no gloves for fielders in *this* game. I was lucky to get a hand on one of them, although it did sting for quite a while. Did it slow it down? Did it stop a 4?

We (Oxford, that is) had to "help out" on occasion. The method, not always perceptible, was to lend people who might cause trouble, but to be fair, I remember Jim Haight taking a tremendous catch against his old university: he could have been forgiven for dropping it, no one would have thought the worse of him! They say Marcus Aurelius never prepared for his successor, but in the case of this fixture, relying not just on a leader but on so many people for its success over the decades – long may it last!

I cannot close without thanking the groundsmen, kitchen staff, the print shop, and the principals (all five of them) of Upper Canada College over the years, who gave the occasion their Nihil Obstat Nile Inpassible. Indeed, the thanks of all are due to my school for making it all possible (and providing some useful players on occasion).

Ave atque vale,

Terence P. O'D. Bredin (Corpus Christi, Oxon 1948)
